DETAILED ACTION

Response to Amendment

Applicant's arguments/amendments with respect to amended claims 1, 3, 9, 10, 12-15, 17 and 26-29, previously presented claims 2, 4-7, 11, 16, 18-25 and 30 and cancelled claim 8 filed April 8, 2005 have been fully considered but are not persuasive.

Applicant contends, "...Vos (prior art of record) neither teaches nor suggests initializing a path metric at a moment when the 8PSK data stream is changed into the QPSK data stream or BPSK data stream, or when the QPSK data stream is changed into the BPSK data stream, so that the path metric is not calculated based on a previously input data stream that includes errors..." The Examiner would like to point out that the modulation occurs at the transmitting end of a communication system. The claim referred to is directed to a decoding method. It is not clear how Applicant is able to change the modulation from the 8PSK data stream into the QPSK data stream or BPSK data stream or the QPSK data stream into the BPSK data stream.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The claim merely recites a method for initializing a path metric. See MPEP 2164.08(a):

Art Unit: 2133

2164.08(a) Single Means Claim

A single means claim, i.e., where a means recitation does not appear in combination with another recited element of means, is subject to an undue breadth rejection under 35 U.S.C. 112, first paragraph. In re Hyatt, 708 F.2d 712, 714-715, 218 USPQ 195, 197 (Fed. Cir. 1983) (A single means claim which covered every conceivable means for achieving the stated purpose was held nonenabling for the scope of the claim because the specification disclosed at most only those means known to the inventor.). When claims depend on a recited property, a fact situation comparable to Hyatt is possible, where the claim covers every conceivable structure (means) for achieving the stated property (result) while the specification discloses at most only those known to the inventor.

Claim Rejections - 35 USC § 103

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35

U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-7 and 9-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vos (USPN 5363413). See prior actions.
